DETAILED ACTION

Claims 1-33 are presented for examination.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 19-30, drawn to data querying processing, classified in class 707, subclass 3.
- II. Claims 10-18 and 31-33, drawn to organizing structure document per application program, classified in class 715, subclass 513.

The inventions I and II are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I (data querying processing) has separate utility such as performing queries on XML data. Invention II (organizing structure document per application program) has separate utility such as storing, creating document structure by invoking a statement of an application program.

Because these inventions are distinct and search groups I and II are not required to be simultaneous which would raise a serious burden for the examiner, therefore, restriction for examination purposes as indicated is proper.

A telephone call was made to applicant's attorney – Ms. Jerome Schaefer on 4/5/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is reminded that the reply to this restriction election to be completed must include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Y. Chen whose telephone number is 571-272-4016. The examiner can normally be reached on Monday - Friday from 7:00-4:30.
